# MRS 180

## THE SPACE-SAVING RESOLING MACHINE WITH THE 180 MM WIDE MELTING HEAD

The machine for workshops with minimum space availability. The MRS is an efficient and economic solution for the repair of skis and snowboards. The MRS is very handy. When the machine is not used, the support extensions can be folded up and pushed

together. Space saving. Speed of resoling, material quantity and pressure setting is variably adjustable.

The MRS also has a carving function.

TECHNICAL DATA	MRS 180
Rated power:	2.7 kW
Voltage:	1 x 230 volt
Charging rate:	12 A
Fuses:	16 A
Compressed air:	6 bar, 20 l/min
Total weight:	195 kg

### ADVANTAGES

- Positive filling makes sure that you always have enough material on the base
- Continuously adjustable feed speed
- Variable speed of wire-feed especially good for carving skis to save material
- Adjustable pneumatic pressure up to 60 kg
- Low melting temperature i.e. no damage to base material
- Ventilation system included
- Use of 5 mm P-tex wire
- For all skis such as telemark to wide skis and carving skis as well as snowboards

### OPTION

- Automatic unloading
- Compressor

### DIMENSIONS MRS 180
